3/8" -16 Hex Nut (x2)

3/8" -16 x 1" Hex Flange Bin PE Washer (x2)

AL Mounting  
Arm Gasket

UPMB Bracket  
Assembly

UPMB Bracket  
Cover Assembly

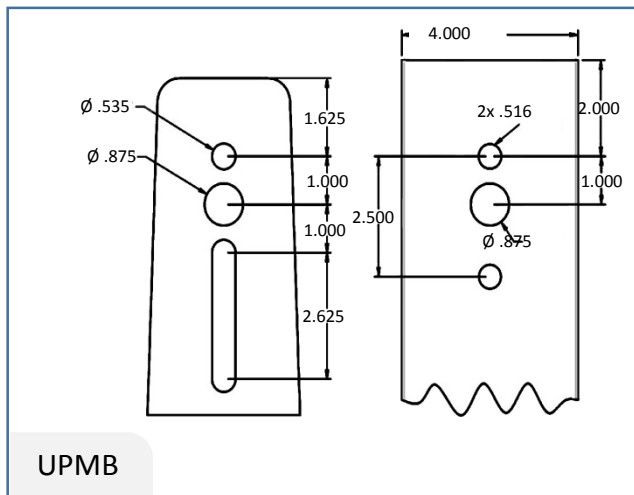

1. Install the Mounting Arm oriented as shown using the provided hardware. Gasket must be placed between the Mounting Arm and the casting to preserve IP rating. Tighten hardware to 12 ft-lbs (144 in-lbs).

2. Install the Mounting Bracket using existing holes. The mounting holes and slots in the Mounting Bracket are designed for 1/2" hardware. Tighten hardware to 12 ft-lbs (144 in-lbs).

3. Slide fixture with the Mounting Arm attached down on to the Mounting Bracket, so that the cutout on the Mounting Arm aligns with the Mounting Bracket. The top surfaces of both pieces should be nearly flush.

4. Secure the two halves of the Mounting Bracket fully seating the #10-24 socket head cap screws. Tighten hardware to 4 ft-lbs (50 in-lbs).

5. Complete all wiring according to local and federal standards/regulations. Install cover for Mounting Bracket using the provided #8-32 screws.

UPMB

### UPMB Installer Notes:

1) Pole must be installed in final upright position before installing UPMB bracket and fixture.
