V5 VALUE SELECT

VALUE SLIM
WALL PACK

The perfect solution for a broad range of outdoor lighting applications.
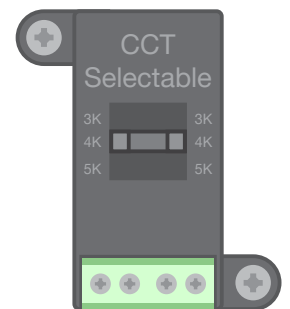

2L & 3L SMALL HOUSING PACKAGES
5L, 8L & 10L LARGE HOUSING PACKAGES

The Value Slim Wall Pack (SWP), is available from 2,400 to 10,500 lumens with an industry-leading high efficacy of 150lm/W. SWP provides greater than 85% in energy and maintenance savings over legacy HID systems. It is the ideal solution for new construction or replacing existing luminaires from 70W to 320W Metal Halide.

CCT SELECTABLE LED TECHNOLOGY

The Value Slim Wall Pack comes standard with field selectable 3000K, 4000K and 5000K LEDs. The integral CCT selector eliminates the need to stock multiple CCT luminaires, ensuring the SWP is equipped for every job site. SWP produces a Type IV forward throw distribution that is fully adjustable. Additionally, it delivers absolute uniformity with excellent illumination, wider spacing and requires fewer luminaires.

CCT SELECTABLE

CCT Selectable

4K · 4K
5K · 5K

FIELD ADJUSTABLE OUTPUT

The Field Adjustable Output accessory allows for individual lumen and wattage output control at installation. The FAO's 7 selectable steps reduce lumen output by approximately 10% per step.

FAO Setting

NEW! QUICK MOUNT BRACKET

New detachable Quick Mount Bracket prevents water intrusion! SWP's isolated optical chamber, no-thru bolt housing installation and poke-thru grommet provides exceptional ingress protection. Universal quick mount bracket enables effortless hands-free installation in minutes and is designed to attach to a multitude of surfaces.

Sleek 3-PC low-profile Die-Cast Aluminum Housing

Deep box 10W Standard & Cold Temperature Battery Backup Options

90° adjustable Type IV distribution

Universal Quick Mount Bracket

Three ½" coin plugs on sides for conduit or electronic photocell

120–277V or 347–480V Drivers

0–10V Dimmable Driver to 10%

Optional Field Adjustable Output device (FAO) allows individual luminaire lumen output control

>70 Color Rendering Index (CRI)

L_{70} >100,000 hrs @ 25°C per TM-21-11

5 lumen packages delivering up to 150 lm/W

Field CCT Selectable 3000K, 4000K, & 5000K
