## AUDITORIUM

Lighting in auditoriums should highlight a performance or lecture and make audiences feel comfortable and engaged. Choosing the right beam angles and lenses minimizes glare on screens and boards, and will ensure that the light illuminates, but does not irritate, those presenting.

## PAR56 LAMP

The REFINE PAR56 lamp is designed with a proprietary GREEN CREATIVE driver which provides flicker free dimming performance with most forward and reverse phase controls. The REFINE optic maximizes the center beam candle power from our 90+ CRI light engine while eliminating glare. The heatsink design allows the lamp to be used in enclosed applications and still maintain a 50,000 hour lifetime. The REFINE PAR56 lamp will replace any GX16d based 300W-500W halogen lamp. Optional PAR64 adapter ring is available for easily converting lamp to fit into PAR64 fixtures.
